THE United States Nurseries are situated in Short Hills, N. J., on the D. L. & Western R. R., only seventeen miles from New York City. Frequent trains leave from foot of Christopher or Barclay Street.

We are pleased to see visitors at any time. A personal visit will facilitate selection of plants, and afford an opportunity of seeing the extent of our Nurseries.

TERMS : Accounts are made up monthly. Our patrons are requested to remit by checks, express, or P. O. Money Orders on New York Post Office, or currency in registered letters, as we cannot be responsible for moneys sent in unregistered letters. From *unknown* correspondents either a remittance or reference is requested with each order.

NO CHARGES are made for boxes, packing, or delivery to the railroad or express office. All plants are carefully packed and may be forwarded safely to any part of the globe.

ORDERS are solicited at as early a date as possible, that we may have ample time for their execution. Please write plainly Name, Post-Office, Express Office, and any other necessary information as to the best method of forwarding.

ADVICES OF SHIPMENT, together with the invoice, are sent the same day goods are forwarded.

COMPLAINTS, if any, should be made on receipt of goods; we promise prompt and just treatment of all claims presented.

HEAD GARDENERS AND ASSISTANTS. We have on our register names of several practical and trusty men for above positions. and will be happy to recommend them to any lady or gentleman requiring their services.

P r e f a c e .

We take great pleasure in presenting to our patrons our Price List of Hardy Herbaceous plants, which will be followed by descriptive Catalogue, containing double the number of species and varieties. There are in addition many kinds which we are testing, and we are now continually receiving varieties from different parts of the Globe.

We make a specialty of Hardy Plants, acres of land being exclusively devoted to this interesting and useful class of Plants which can be used not only in parks and beautiful gardens but around every cottage however small.

With a good selection the garden is always gay with their beautiful blossoms from the time the snow leaves the ground until the hard frost stops all vegetation. They are adapted for every soil, situation and exposure, and once planted keep on increasing every year in size and beauty.

They are also very inexpensive plants, so that all are able to beautify their homes at a trifling outlay.

N. B.—Full cultural directions will be given in our Descriptive Catalogue.
